Policies and Documents

The purchase of Allegion products is governed by the Allegion Authorized Seller Program. For program terms and conditions, and other program details, please visit: www.allegion.ca/en/home/policies.html

For Warranty information, visit us.allegion.com/warranty or contact Customer Service at 800-900-4734

**ONLINE ORDERING IS AVAILABLE THROUGH ESTIMATE TO ORDER (ETO)**

ETO offers much more than placing online orders including:

- Net price and list price are both displayed based on your buying program.
- Configure products, build hardware sets and place an order, or you can export to Excel.
- Build a dynamic cross-reference between your part numbers and Allegion part numbers. Any time a description, price or other product data is changed, your cross-reference will automatically be updated.
- Request a quote or quote revision directly from an estimate

Visit <http://360portal.allegion.com> to get started or email online.ordering.access@allegion.com to sign up.

To learn more about how ETO works and its features, visit: us.allegion.com/ETOdirect.

PRODUCT REQUEST PROCESS

For more information about the RFQ process and to download the RFQ form, please visit the Allegion Canada Price Books page on the website www.allegion.ca/en/home/price-books.html*

*Please scroll to the bottom of the website page to locate these files under the headings "Process" and "Forms".

You can **configure and price a full range of products** using the tables and rules shown in this book.

The simplified structure of pricing and product data in this book creates an easier configuration experience and a quicker update process for future price increases. Pricing logic used in this format makes the product and price easier to understand and has enabled Allegion to provide customers with a **digital data set of pricing, available for download at <http://360portal.allegion.com>.**

As a result, the **How to Order formats have been updated to match the Allegion Catalog Nomenclature (ACN) logic.** ACNs are descriptive, unique identifiers that set standards on how to order products and require default, consistent naming conventions for all product attributes across Allegion brands.

For more information about ACNs, please visit us.allegion.com/acnsupport or email ACNHelp@allegion.com.

DOOR WIDTHS

EXIT DEVICES for door widths exceeding 4'0" are custom applications. Door width is assumed 3'0" unless specified otherwise. Specify the exact door width and consult factory for price or see page 17.

DOOR THICKNESS

EXIT DEVICES are furnished at prices listed for door thicknesses of 1-3/4" and 2-1/4" with standard centerlines. Other door thicknesses and/or offset installations may require additional charges for the device, trim, control and/or strike. Consult factory for price or see pages 15, 16, and 17. Some extended door thickness applications are standard, see device option pages.

DOOR HEIGHTS/DEVICE CENTERLINE

SURFACE VERTICAL ROD DEVICES are furnished at prices listed for door heights up to 7'0". For heights above 7'0", extension rods are furnished at prices shown on page 170. For doors higher than 10'0" or when centerline is other than standard, specify exact height and/or centerline. Consult factory for price or see device page. ADA centerline of 37" is available at no additional charge, must be specified. Door height is assumed 7'0" unless specified otherwise.

CONCEALED VERTICAL ROD DEVICES are furnished at prices listed for door heights 6'8" to 8'4" on touch bar devices, and up to 8'0" on crossbar devices. For extension rods up to 10'0", see page 170 for prices. For heights other than this or when centerline is other than standard, specify exact height. Consult factory for price or see device page. Door height is assumed 7'0" unless specified otherwise.

HANDING

DEVICES: Furnished RHR when handing is not specified.

LEVER TRIMS: Trims are furnished RHR when handing is not specified.

CYLINDERS

We do not offer custom keying.

SUBSTITUTION OF OUTSIDE TRIM OR STRIKES

When standard is not desired, deduct price of standard and add price of item used. Check catalog for compatibility. Refer to device Product Catalogs for specific door application strike requirements.

ELECTRIC ACCESSORIES

When specifying Electrical Products, consult Product Catalog or factory to insure all required accessories have been specified.

PRODUCT CATALOGS

Refer to the Product Catalogs for required accessories and specific requirements.

APPLICATION NOTE FOR 2' DEVICE

Available on Surface and Concealed Vertical (panic and fire).

When vertical rod devices are used on both doors of a pair, operation of the inactive door (smaller door) will not disengage the active door, creating a potential safety issue for those using the inactive door during an emergency. In addition, standard hex or cylinder dogging is not available. Dogging is not available for this application on 33/3527A/47/49A/50A-WDC devices.

For pairs of doors using one 2' door Von Duprin recommends the following hardware combinations listed below for optimum safety in an emergency.

1. Surface or Concealed Vertical device on the 2' door (inactive) and a mortise device on the larger door (active). This combination is used primarily on Hollow Metal door applications only.
2. Automatic Flush Bolt on the 2' door (inactive) and a Surface or Concealed Vertical device on the larger door (active).

Note: The 2' door width is not available with any electrical, Chexit, hurricane or windstorm options.

APPLICATION NOTE FOR 2' DEVICE

Available on Surface and Concealed Vertical (panic and fire).

When vertical rod devices are used on both doors of a pair, operation of the inactive door (smaller door) will not disengage the active door, creating a potential safety issue for those using the inactive door during an emergency. In addition, standard hex or cylinder dogging is not available. If dogging is required, special center case dogging is available for 98/9927/47/49/50WDC devices. Prefix device with "SD".

For pairs of doors using one 2' door Von Duprin recommends the following hardware combinations listed below for optimum safety in an emergency.

1. Surface or Concealed Vertical device on the 2' door (inactive) and a mortise device on the larger door (active). This combination is used primarily on Hollow Metal door applications only.
2. Automatic Flush Bolt on the 2' door (inactive) and a Surface or Concealed Vertical device on the larger door (active).

Note: The 2' door width is not available with any electrical, Chexit, hurricane or windstorm options.

³ 2-1/4" door with GBK + -2SI is an engineering special. Longer lead times may apply. When rim cylinders with a horizontal tailpiece are used, order 47686979 kit for compatibility. Please contact Customer Care at Exits_TechProdSupport@allegion.com or (877) 671-7011, Option 2.

WARNING: Double cylinder options (2/2SI) are ideal for fire exit hardware and panic hardware that is not equipped with the dogging feature. Combining a double cylinder option with the dogging feature is not recommended, as the hardware could be in the dogged (unlatched) position when the indicator states a locked position.

A library of common wiring diagrams are available at no-charge for use in single and double door applications utilizing various configurations of Allegion door hardware products. These diagrams and much more can be accessed through our Knowledge Center tool at <http://kc.allegion.com/>, simply click on the link Common wiring diagrams.

Custom Wiring Diagrams

When common wiring diagrams do not meet the needs of the job requirements, Allegion offers a service to purchase custom wiring diagrams.

- Standard drawings: Will be priced at NET \$324* per drawing.

How to Request a Quote for a Custom Wiring Diagram

- Custom wiring diagrams can only be ordered by and shipped to current Allegion Channel Partners
- Wiring Diagram Request Forms can be obtained by:
 - Sending an email request to canada.techservices@allegion.com
 - Using the form located on page 203
- Once completed, email the completed request form to canada.techservices@allegion.com for processing
 - Be sure and include the following information to prevent delays to the request:
 - Hardware list with complete part numbers/nomenclature
 - Detailed Theory of operation for all openings
- Will be reviewed for clarity upon receipt
- Once all clarifications are resolved, NET pricing, and lead time will be assigned and communicated to the requestor within 1 business day
- A purchase order must be received for the wiring diagrams to be produced
 - Send the completed PO to canada.techservices@allegion.com
- Lead time is 5 business days from time PO is received for 5 or less drawings. 6 or more drawings will have longer lead times
- Changes to the original request after a quote approval may incur additional charges and affect lead time
- Completed custom wiring diagrams will be emailed to the requestor
